FOR LIVING SPACES

SPRING 2022

When we set out to create our furniture and accessory collections for Living Spaces, quality and personality were key components we wanted to bring to our designs. Because your home is a reflection of who you are and what you love, the pieces you choose to incorporate should represent your passions and priorities. We emphasized comfort and function above all, but we also believe in the importance of aesthetics. Your surroundings should look as good as they feel, and we hope these items do just the trick for you and your family.

- Drew & Jonathan Scott

276289 WESTRIDGE Eastern King Panel Bed

To create the most restful retreat, you need designs that ease your mind and soothe your space. Our Westridge bedroom collection inspires relaxation with breakfront details that mimic the peaks and valleys of the San Gabriel Mountains. We've also added calming grey tones for a sense of causal, coastal charm. We hope these pieces allow you to begin and end your day in a peaceful way.

SEEK SANCTUARY

We've infused tranquil natural vibes into each piece by using quartered oak veneer in a light finish, while brushed nickel metal details create a fresh modern look.

SUITE DREAMS

We love the classic architecture of buildings in downtown L.A., and we wanted to mimic that look and feel through elements that add character to each piece, including the bed's vertical channel tufting.

276285 **PALLADIUM** Eastern King Shelter Upholstered Bed
276941 **MARMONT** Navy Leather Chair

We love to add dimension and distinction to our designs, and the Palladium bedroom collection features a reverse-diamond veneer pattern that's inspired by our affinity for Art Deco style. Extra special details, like sleek brass hardware, bring home the glamour of old Hollywood, but with a fresh and updated flourish.
