

LIVING SPACES

TEXTURE HOME CATALOG

material world

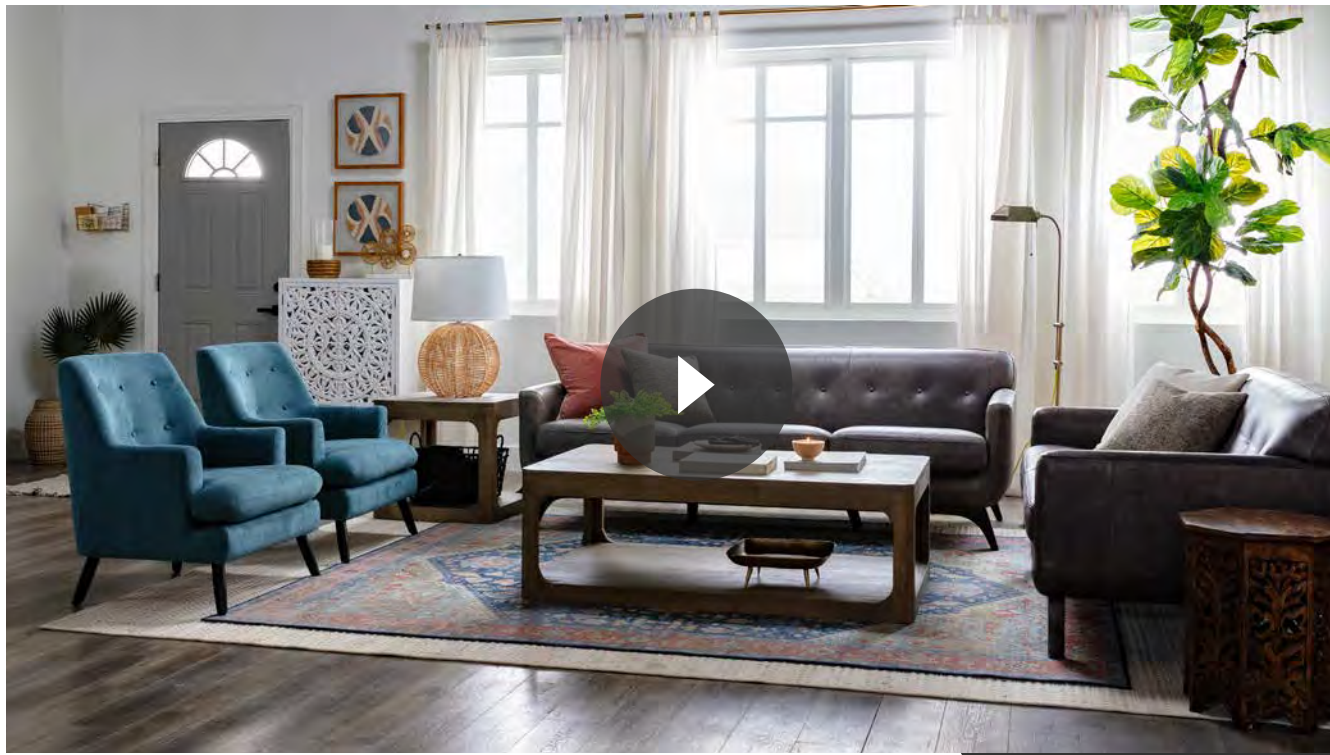

Bringing a room to life happens in steps, and one of the most underestimated power moves in an interior designer's arsenal is incorporating layer upon layer of texture. We can't help but want to touch and feel the pieces that surround us, and the more you mix it up, the better. When you juxtapose hard and soft, silky and nubby, you create a dynamic, to-die-for space.

combine forces

Texture isn't just about what you can literally touch and feel - there's also an intangible element that comes through in the eclectic blend of colors, patterns and styles. This interweaving of characteristics is what enriches a room. Texture can transcend the senses by telling a story, and each piece plays an integral role - whether they're old or new, bright or neutral, modern or traditional.

01.

02.

Empty walls present one of the most compelling settings for textural details. Let a blank canvas come alive with a sunburst mirror that adds dimension and distinction.

01. 275785 CHANDLER Sideboard
02. 103817 Gold Aged Mirror

Designs that bring in art, shape and pattern are always incredibly striking and interesting pieces to look at. Texture comes through in the sense of movement these items create.

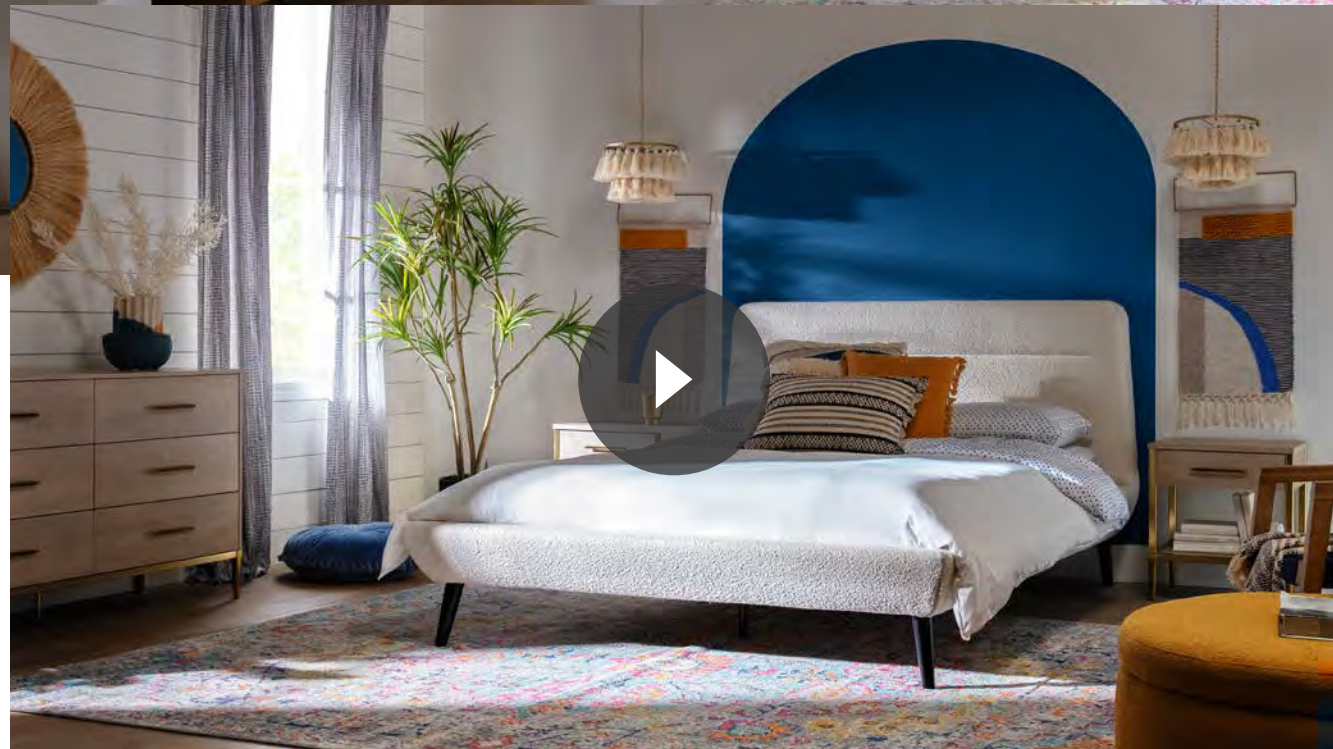

Nature is the ultimate provider of texture – from wood and leather, to rattan and plants. Bring them in and let them shine.

- 04. 282605 **CREW** Navy Outdoor Dining Chair
- 05. 265080 Blue & Multicolored Traditional Rug 78"X10'3"

fringe benefits

Texture can be as subtle or as statement-making as you want - it's all in the materials you use and how you use them. From the boucle-style upholstered bed, to the wall hangings, pillows and throw blanket, layers of softness abound and help put the "treat" in retreat.

What makes texture such an intriguing element of design is that it showcases the materials and reveals the construction methods in all their glory.

pile on possibility

In the big picture of texture, pillows have the ability to add all that jazz. There is room for such diversity, personality and creativity, but at the end of the day, it either has to be soft enough to snuggle with or lively enough to pop.
